Company: Nvalue Energia OOD
Sector: Renewable Energy
Website: www.nvalue.ch
Contact: Azzurra Grande – Senior HR Specialist
E-mail: jobs@nvalue.ch

Company description: Join the energy transition with us!

Nvalue AG is a leading company in the European renewable energy market and part of the Nvalue group with offices in Switzerland, Italy, the Netherlands and Bulgaria.

We are a young and dynamic team of professionals entirely dedicated to promoting solutions for renewable energy consumption, energy saving and the abatement of greenhouse gas emissions.

Our company, as a rule, adopts cutting edge technical solutions and thus R&D is an important aspect in our work environment.

Open position: Middle-Senior Software Developer

Job description: We are looking for a Middle-Senior Software Microsoft .NET Developer to develop, improve, support and maintain our in-house business application, which is a long-term project currently undergoing a complete software renewal.

The ideal candidate has excellent technical skills, is capable to understand our business requirements, likes the challenge, is motivated and a good team player.

You will create applications from scratch, configure existing systems and provide user support, also in cooperation with external providers.

It's not just about writing code but also about understanding the business and interacting with non-technical colleagues on a regular basis in order to understand their needs and set future goals.

The position offers the chance to widen the spectrum of the candidates development experience through the collaboration with expert external partners.

The position can be either located in Italy (Genova), Switzerland (Agnò) or Bulgaria (Varna).

Key Responsibilities and Activities:

- Developing, improving, supporting and maintaining our in-house business application;
- Interacting with non-IT colleagues for the identification and classification of Business Requirements;
- Represent IT in projects and lead IT related part;
- Collaborate with third party service providers
- Occasionally travel to different European company offices to interact with different users.

Desired Skills and Expertise

- Degree in computer engineering or computer science;
- At least 5 years of professional experience in software development;
- Good understanding of business and organizational requirements outside the technical sphere;
- Good interpersonal communication skills, also outside the technical environment;
- Good knowledge of Microsoft .NET environment;
- Expertise on a professional level with HTML5/CSS3, JavaScript, Angular;

- Expertise on a professional level with Node.js / Express, PHP, MYSQL;
- Experience with Docker; GIT;...
- Self motivated team player;
- Good problem solving skills.

Language skills: Professional in English (written and oral)

Location: Italy (Genova) – CH (Agno) – Bulgaria (Varna)

Our Offering:

- A vibrant, dynamic and international working environment;
- A multicultural team of professionals, entirely focused on promoting solutions for renewable energy consumption, energy savings, and greenhouse gas emissions abatement;
- Opportunity to work independently within a cohesive and supportive team;

Remuneration: Fixed salary + highly competitive bonus structure.

To apply: Please send CV in English to jobs@nvalue.ch
